LEATHER

At American Leather®, we begin with your needs in mind. We partner with the world's top tanneries to craft leathers for every lifestyle and design aesthetic. With a curated color palette and varied textures across all major leather categories, we have a leather option that perfectly suits your home.

Our **Protected** leathers provide an alluring look, yet low-maintenance solution for active homes — especially those with children and pets. With heavy protection, these leathers provide truly easy care along with consistent color payoff and style.

Leathers in the **Essential** category are inspired by our all-time best sellers. As medium-protected leathers, they perfectly combine luxury and durability for excellent performance in active homes.

Designed exclusively for American Leather, **Couture** leathers feature hand-selected materials tailored to bring high-end fashion to home life. Very lightly protected, these are the most delicate leathers in the portfolio.

Our line of **Specialty** leathers is designed for those who desire a one-of-a-kind piece. Lightly protected, these are delicate and prone to scratching, creating a unique and distinctive look over the years.
